THE TRAIL OF
PAINTED PONIES

Tempest

Artist: Star Liana York

Artistic collaboration is a hallmark of The Trail of Painted Ponies, and "Tempest" is a collaboration of a different kind. Santa Fe sculptor Star Liana York created the spectacular Painted Pony titled "Silver Lining," which was her representation of the mythological horse Pegasus soaring towards the heavens on a mighty set of wings. With "Tempest" she has re-interpreted her original concept to depict Pegasus searching through dark and churning storm clouds in search of the elusive silver lining of blue skies, thereby giving her original Pony an entirely new feel and meaning.

THE TRAIL OF
PAINTED PONIES

War Magic

Artists: Rance Hood and Kathleen Moody

Artistic collaboration is a hallmark of The Trail of Painted Ponies, and "War Magic" is the first Painted Pony in a new series called the Collaboration Collection. Through color changes and enhancements, and the addition of new religious symbols that add spiritual power to battle decorations, Master Artist Kathleen Moody has transformed "War Pony," a tribute to the legendary fighting spirit of the Comanche Indians and The Trail's all-time bestselling figurine, into a unique and entirely original design.
